We can typeset verses and guitar chord grids in a `guitar` environment:

Imagine (John Lennon)

Intro, × 2

C   Cmaj7   F

C   Cmaj7   F
Imagine there's no   heaven

C   Cmaj7   F
It's easy if you   try

...and so on. But we could just use the \upchord command, provided by gchords:

C   Cmaj7   F
Imagine there's no   heaven

C   Cmaj7   F
It's easy if you   try
